Send in Your Clubs.

The friends of the *Commonwealth* will be pleased to learn that the subscription list for the Daily was never before so large as it now is; the advertising patronage is also so much increased as to trespass on our editorial columns. May we not ask our friends, personal and political to exert themselves to give our paper a still greater circulation among the people. There is no county in the State in which at least a dozen subscribers could not be added to our list by a slight effort on the part of our friends, and though the sum collected from each would be trifling, the aggregate would be an immense advantage to us. It would at once place the paper on a paying basis, and enable the publishers to enlarge and improve it. Manifestly it is the advantage of those who have already subscribed for the *Commonwealth* to get others to follow their example. Increase our subscription list, gentlemen, and we will repay you by sending you a better paper. There is nothing like encouragement and patronage to promote enterprise and industry. If you wish work out of those you employ, you must feed them well.

Dr. Craik's Lecture on the Union.

We are glad to announce that the Lecture recently delivered by this gentleman in Louisville, and which was received with such unqualified approval and admiration by all who had an opportunity of hearing it, is to be repeated in this city. The following correspondence explains itself:

FRANKFORT, Ky., December 16, 1859.

Rev. and Dear Sir: It would gratify many citizens of Frankfort, of all parties, besides members of the Legislature and strangers now in the city, if you would consent to deliver the Lecture here which has recently afforded so much satisfaction to the citizens of Louisville. The use of the Representative Hall can be secured for this purpose, and Monday night, Dec. 19th, would be a convenient time, if it will suit your other engagements.

Yours very respectfully,
B. MAGOFFIN, R. R. REVELL,
G. W. CRADDOCK, H. I. TODD,
S. L. M. MAJOR, A. W. VALLANDINGHAM,
R. P. LETCHER, THOMAS M. GREEN,
H. WINGATE, R. K. BOLLING,
E. H. TAYLOR, J. HARLAN,
P. SWICKERT, B. MONROE,
E. D. SAMUEL, J. SWICKERT,
JAS. W. BATCHELOR, THOS. B. MONROE.

The notice being too short for Dr. CRAIK to send a reply by mail, an acceptance of the above invitation has been received by telegraph. The Lecture will be delivered to night, (Monday,) in the Representative Hall, at 7 o'clock. Of course there will be a large attendance.

The News.

Two more ballots have been had in Congress, but without an election. On the first of these ballots, a few of the more moderate of the Republicans and some of the anti-Lecompton Democrats voted for Gilmer, of North Carolina, thus raising his vote to 36, sufficient with the Administration vote to have elected him. On the second ballot, Mr. Gilmer with drew, and the vote stood thus: Sherman, 11; Bocock, 53; Butler, 25; scattering, 9. The Republicans who voted for Gilmer, again supported Sherman upon the withdrawal of the former.

On Friday, the negroes Green and Copeland, and Cook and Coppee, were executed at Charles town. Cook and Coppee had made an attempt to escape, by sawing off their manacles and cutting a hole through the wall of the jail. They succeeded in getting through this aperture, and let themselves drop to the ground. The timbers of the scaffold upon which Brown was hung were then used for scaling the wall. As Cook attempted to elevate himself above the top of the wall, he was observed and fired upon by the guard outside. The prisoners then retreated to the door of the jail, and were recaptured; and thus the slender thread upon which hung their last hope of life was broken. Strange that Cook did not jump at any rate, and meet his death bravely by the bayonet or bullet rather than by the halter. This occurred on Thursday night, and they were executed next day, in the presence of a large crowd of Virginians who had assembled to see the finale of this tragic comedy.

DODGE'S PATENT GRATES AND STOVES.—We have been requested to state that Dodge's hands are in Frankfort with materials suitable for putting in his Patent Grates and Open Stoves. Orders may be left, by those wishing their services, with Mr. G. W. Owen, at the Express Office; and all persons desirous to know anything of the character of their work, and the utility of the grates and stoves, are referred to Col. E. H. Taylor, at the Branch Bank of Kentucky.

The highly improved BRAZILIAN PEBBLE SPECTACLES, which are now to be had at Harris' Gallery, over the Postoffice, are really an improvement on human vision; and we advise those that fail to see with convenience to call on Mr. SINCERE, the well recommended and skillful Optician. He is the man who will do you good.—Don't miss a rare chance, as Mr. SINCERE's stay in our community is but for three days.

Troubles are like babies, that only grow bigger by nursing.

Decision of the Court of Appeals.

[Reported expressly for the *Commonwealth* by JOHN M. BROWN, Attorney-at-Law, Frankfort, Ky.]

From the McLean Circuit Court.

This case was tried at the September term of the Circuit Court, 1858. At that time a verdict and judgment were rendered, grounds for a new trial filed, and a motion made thereon which was overruled. There is no order allowing time to reduce the exceptions to writing and file them. The record shows that at the March term, "the parties came by their attorneys, and it appearing that at the trial of this case at the last term of the court, the court allowed defendants time to prepare a statement and bill of exceptions—which being now presented, are ordered to be entered as part of this record *nunc pro tunc*."

Judge WOOD delivered the opinion of the court. The record as presented to the court contains what purports to be a bill of exceptions in which the evidence is "spread" or written out. But as in *Freeman vs. Benham*, 17 B. Monroe, 607, the first question to be settled is, will this court revise a case presented with a bill of exceptions made out as in this record.

By sec. 364 of the Code, "the party objecting to the decision must except at the time the decision is made; and time may be given to reduce the exceptions to writing, but not beyond the succeeding term." But the order giving time must certainly be made at the time the exception is taken, and the records of the court of that term must show that the exception was taken at the time the decision was made, and that time was then given to reduce the exceptions to writing.

It is stated that at the March term, "the parties came by their attorneys, and it appearing that at the trial of this case at the last term the court allowed defendants time to prepare a statement and bill of exceptions." This does not appear from the record, nor is there any trace of it there.

Circuit Courts cannot be allowed, in matters of such importance to litigants, to deviate from the plain and express rules of law, upon "appearances" so unreliable and uncertain. If such were permitted, the rights of litigants in making out and filing bills of exceptions would no longer be secure.

It is also stated that this, i. e., the bill of exceptions, "being now presented, is ordered to be entered as part of the record *nunc pro tunc*."

This does not purport to be an entry *nunc pro tunc* of the order giving time, &c. The order is that the statement of evidence and bill of exceptions be entered. We apprehend that such an order could not have been rightfully entered by the court, at a term after the cause had been terminated by a final judgment, and motion for a new trial made and overruled. The cause was completely out of court. There is nothing to amend by, nothing to give an intimation that such an order has been made in such a case, no amendment or entry of an order *nunc pro tunc* could be made. (2 Bibb? same book, p. 248.)

The circumstances of this case will illustrate how unsafe and dangerous it would be to regard a bill of exceptions placed like this upon the record without authority of law; indeed contrary to the express provisions of the law. A comparison of the two will show that the statement made by the judge of what occurred upon the trial in regard to giving and refusing instructions, is materially variant from the statement made of the same matters in the final order made at the September term, 1858.

We are therefore of opinion that this court cannot revise a judgment upon a bill of exceptions made out and filed as this was.

Wherefore the judgment of the Circuit Court is affirmed.

THE AMERICAN HORSES IN ENGLAND.—It has been stated that Ten Brock won upwards of \$300,000 in England this year. This enormous sum was mostly in the shape of bets. The following summary from Wilkes' Spirit of the Times shows how many times the American horses started and won, with their winnings:

GENERAL SUMMARY.
Prior to ran 11 times, won 5, and lost 6—cash winnings \$5,550; Starke ran 10 times, won 3, and lost 7—cash winnings \$13,310; Unipare ran 5 times, won 3, and lost 2—cash winnings \$4,257; Babylon ran 9 times, won 1, and lost 8—cash winnings \$225; Woodburn ran 11 times, won 1, and lost 10—cash winnings \$1,675; Optic ran 4 times, won 0, and lost 4; Satellite ran 1 time, won 0, and lost 1; Des Chiles ran 3 times, won 0, and lost 3; Cincinnati ran 3 times, won 0, and lost 3; Lincoln ran 2 times, won 0, and lost 2.
Ran 59 times, won 13, and lost 46. Stakes won \$25,017.

MURDER OF THE GOVERNOR OF BOGOTA BY HIS BROTHER.—The Bogota, New Grenada, correspondent of the New York Times, writes:

On the 1st of November the population of Bogota were horrified at the report that Jose Maria Mora, Mayor of Bogota, had been murdered by his brother Jesus. The parents of these two brothers had died about the same time a few years ago, leaving Don Jose the executor of the will. The property was divided in accordance with their wishes, but the younger brother, Jesus, was not satisfied with his inheritance, and charged the elder with unfairness in his distribution. On the day of the murder Jesus met his brother in the street, and asked him when he was going to pay him \$20,000 due him. The Governor replied that he had already paid him all that was justly due him. Jesus, upon this, drew two revolvers, and offering his brother one of them, told him he must defend himself. Jose, desirous of an unnatural duel, and commenced remonstrating with his brother, when the latter fired, the shot taking effect. The wounded man, not knowing he was shot, ran, and was followed by Jesus, who discharged two more shots at him, neither of which took effect. Don Jose was carried to his home, and died in twenty seven hours after, invoking pardon for his brother. He left a wife and seven little children. It was thought Jesus would be acquitted of the crime on the plea of insanity, but a few days after the tragedy, news reached Bogota that in one of the rural districts of the State, a man of humble fortune had killed his brother with a scythe—and as the poor man must be shot, the rich one will naturally share his fate. Senor Pedro Davila Novoa takes the post vacated by Senor Blanco.

UNITED STATES PUBLIC LANDS.—During the fiscal year ending last June, and the quarter ending with September, there were 4,970,093 acres of public lands sold, bringing \$2,107,476. The cash receipts were less than last year, but more acres were disposed of, owing to the operation of the graduation act of 1854. In addition to the quantity sold, 6,318,003 acres were certified to in certain States for railroad purposes, 3,617,440 acres were located with bounty land warrants, and 1,712,040 acres approved under swamp grant act.

The father of the kidnapped boy Mortara, whose arrival in Paris has been announced, is still young, and of gentleman like demeanor. He is very calm in manner, but is energetically resolved to spare no pains to obtain possession of his child. His wife recently gave birth to another child in Bologna, and placed the child in Rome, in order not to run the risk of having it taken from her. M. and Mme. Mortara intend to take up their residence in Piedmont. M. Mortara, when at Rome, was not allowed to see his child, except in presence of priests, but was told that the little fellow should be given up to him if he himself would consent to be converted. He wanted the Roman Government to consent to allow the child to be removed from Rome to a convent in Turin; but seeing that this was not likely to be granted, he came to Paris, in order to bring his case before the Congress.

An exchange says: "It is easy to talk of dissolving the Union, but the question arises—what will you dissolve it in?" In the mingled tears and blood of a distracted and unhappy nation—once the freest and most enlightened on the globe.

There's nothing lost. The tiniest flower
That grows within the darkest vale,
Though lost to view, has still the power
The rarest perfume to exhale;
That perfume, borne on the zephyr's wings,
May visit some lone sick one's bed,
And like the balm affection brings,
'Twill scatter gladness round her head.

There's nothing lost. The drop of dew
That trembles in the rose bud's breast,
Will seek its home of eud blue,
And fall again as pure as dew;
Perchance to revel in the spray,
Or moisten the dry, parching soil,
Or mingle in the mountain spray,
Or sparkle in the bow of God.

There's nothing lost. The slightest tone
Or whisper from a loved one's voice
May melt a heart of hardest stone,
And make a saddened heart rejoice;
And then, again, the careless word,
Our thoughtless lips too often speak,
May touch a heart already stirred,
And cause that troubled heart to break.

There's nothing lost. The faintest strain
Of breathing from some dear one's lute
In memory's dream may come again,
Though every mournful string be mute;
The music of some happier hour,
The harp that swells with love's own words,
May thrill the soul with the deepest power,
When still the hand that swept its chords.

DESTITUTION OF JEWS AT GIBRALTAR.—The Jewish Messenger has advice by the steamer Africa of the most gloomy character. They relate that the Jews in the now agitated State of Morocco, placed as they are between the attacking Spaniards, and the defending Moors, with the savage Kabyle ready to pillage and murder them, hundreds of Jewish families have fled from Tangiers, regardless of their destitution, homeless where they shall find a shelter for their weary heads, a home for their houseless wives and starving children. Twenty seven hundred of these poor beings have arrived at Gibraltar, where they are suffering every privation. The English Jews, at the head of whom is Sir Moses Montefiore, have commenced a subscription for their relief, and appeal to the American Jews for aid.

FINAL SETTLEMENT OF THE FORREST DIVORCE CASE.—This vexed question has at last been settled in New York, by the referees appointed, who decided that Mr. Forrest must pay his divorced wife \$4,000 a year from the time of divorce, which, together with costs of suit will amount to nearly \$100,000. As Forrest is worth half a million, he can well afford to give so small a sum for the luxury of getting rid of a wife.

Everything that a man leans upon but God will be a dart that will certainly pierce his heart through and through. He who leans only upon Christ, lives the highest, choicest, safest, and sweetest life.

AYER'S Aggie Cure,

FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague,
Remittent Fever, Chill Fever, Dumb
Ague, Periodical Headache, or Bilious
Headache, and Bilious Fevers, indeed
for the whole class of diseases origi-
nating in biliary derangement, caused
by the Malaria of miasmatic countries.

No one remedy is louder called for by the
necessities of the American people than a
safe and sure cure for Fever and Ague. Such
we are now enabled to offer, with a perfect
certainty that it will eradicate the disease,
and with assurance, founded on proof, that
no harm can arise from its use in any quan-
tity.

That which protects from or prevents this
disorder must be of immense service in the
communities where it prevails. Prevention is
better than cure, for the patient escapes the
risk which he must run in violent attacks of
this baleful distemper. This "Aggie" cures
the miasmatic poison of FEVER and AGUE
from the system and prevents the develop-
ment of the disease, if taken on the first ap-
proach of its premonitory symptoms. It is
not only the best remedy ever yet discovered
for this class of complaints, but also the
cheapest. The large quantity we supply for
a dollar brings it within the reach of every
body; and in bilious districts, where FEVER
and AGUE prevail, every body should have it
and use it freely both for cure and protection.
It is hoped this price will place it within
the reach of all—the poor as well as the rich.
A great superiority of this remedy over any
other ever discovered for the speedy and cer-
tain cure of Intermittents is, that it contains
no Quinine or mineral, consequently it pro-
duces no quinine or other injurious effects
whatever upon the constitution. Those cured
by it are left as healthy as if they had never
had the disease.

Fever and Ague is not alone the consequence
of the miasmatic poison. A great variety of
disorders arise from its irritation, among which
are Neuralgia, Rheumatism, Gout, Headache,
Blindness, Toothache, Earache, Catarrh, Asthma,
Palpitation, Painful Affection of the
Spleen, Hysterics, Pain in the Bowels, Colic,
Paralysis, and Derangement of the Stomach,
all of which, when originating in this cause,
put on the intermittent type, or become period-
ical. This "Aggie" cures the poison from the
blood, and consequently cures them all
alike. It is an invaluable protection to immi-
grants and persons traveling or temporarily
residing in the malarious districts. If taken
occasionally or daily while exposed to the in-
fection, that will be excreted from the system,
and cannot accumulate in sufficient quantity
to ripen into disease. Hence it is even more
valuable for protection than cure, and few will
ever suffer from Intermittents, if they avail
themselves of the protection this remedy af-
fords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,
are so composed that disease within the range of
their action can rarely withstand or evade them.
Their penetrating properties search, and cleanse,
and invigorate every portion of the human organ-
ism, correcting its diseased action, and restoring
its healthy vitality. As a consequence of these
properties, the invalid who is bowed down with
pain or physical debility is astonished to find his
health or energy restored by a remedy at once so
simple and invigorating.

Not only do they cure the every-day complaints
of every body, but also many formidable and
dangerous diseases. The agent below named is
pleased to furnish gratis his American Almanac,
containing certificates of their cures and directing
their use in the following complaints: Consti-
pation, Heartburn, Headache arising from disordered
Stomach, Nausea, Indigestion, Pain in and Morbid
Inaction of the Bowels, Flatulence, Loss of Appetite,
Jaundice, and other kindred complaints,
arising from a low state of the body or obstruction
of its functions. They are an excellent alternative
for the renovation of the blood and the restoration
of tone and strength to the system debilitated
by disease.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness,
Croup, Bronchitis, Incipient Consumption,
and for the relief of Consumptive
Patients in advanced stages of the
disease.

So wide is the field of its usefulness and so nu-
merous are the cases of its cures, that almost
every section of country abounds in persons pub-
licly known, who have been restored from alarming
and even desperate diseases of the lungs by its
use. When once tried, its superiority over every
other medicine of its kind is too apparent to escape
observation, and where its virtues are known, the
public no longer hesitate what antidote to employ
for the distressing and dangerous affections of the
pulmonary organs that are incident to our climate.
While many inferior remedies thrust upon the
community have failed and been discarded, this
has gained friends by every trial, conferred benefits
on the afflicted that can never be forgotten, and pro-
duced cures too numerous and too remarkable to
be forgotten.

THE VESPER GAS, OR AIR LIGHT.

The Cheapest, most Brilliant, and most Conven-
ient Artificial Light in the World:
THE Vesper Gas Light has won for itself a reputation
for elegance, economy, safety, and simplicity far be-
yond any other artificial light. The Vesper Gas flame
and fixtures precisely resemble in form those of coal
gas, but in brilliancy and purity of light it possesses a
decided advantage over even Louisville coal gas. It
requires no chimney; there is no need of daily trim-
ming of wick; and the combustion of the gas is so
simple that it is not liable to get out of order, and a
child can manage it readily. The gas burned in the
Vesper fixtures is generated from pure coal oil, with-
out any admixture of alcohol or other foreign ingredi-
ent. It is entirely free from odor while burning, and
by a simple contrivance, the vapor of the oil is mixed
with the atmosphere, producing perfect combustion
and a most intense light. The light has been pronounced
by those who have had it in constant use for months, as
most pleasant to the eye while reading or sewing, there
being no flicker or unsteadiness in the flame. The
Vesper Gas Light is portable, and can be used in town
or country, and, wherever artificial light is required.
The fixtures themselves are adapted in style to suit all
tastes, from the plain single-light burner to the most
costly chandelier. Each chandelier is perfect in itself,
there is no need of made for service pipes. The
gas is generated in the burner, and all fixtures, from the
cheap single-light burner, to the expensive chandelier,
are manufactured in the same way, and are sold at
prices which do not exceed the cost of the ordinary
gas fixtures of similar style and ornamentation. A price
list will be sent to any address on application.

THE IRON being absorbed by the blood, and
thus circulating through the whole system, no
part of the body can escape their truly wonder-
ful influence.
The experience of thousands daily proves that
no preparation of Iron can for a moment be
compared with it. Impurities of the blood, de-
pression of vital energy, pale and otherwise
sickly complexions indicate its necessity in al-
most every conceivable case. In all cases of
female debility (fluor albus, chlorosis, etc.), its
effects are delightfully renovating. No remedy
has ever been discovered, in the whole history
of medicine, which exerts such prompt, happy,
and fully restorative effects. Good appetite, com-
plete digestion, rapid acquisition of strength,
with an unusual disposition for active and
cheerful exercise, immediately follow its use.
As a grand stomachic and general restorative,
it has no superior and no substitute.
Put up in neat glass bottles containing
50 pills, price 50 cents per box; six boxes,
\$2 50; one dozen boxes, \$4 00. For sale by
Druggists generally. Will be sent free to
any address on receipt of the price. All let-
ters, orders, etc., should be addressed to

THE VESPER GAS, OR AIR LIGHT.

The Cheapest, most Brilliant, and most Conven-
ient Artificial Light in the World:
THE Vesper Gas Light has won for itself a reputation
for elegance, economy, safety, and simplicity far be-
yond any other artificial light. The Vesper Gas flame
and fixtures precisely resemble in form those of coal
gas, but in brilliancy and purity of light it possesses a
decided advantage over even Louisville coal gas. It
requires no chimney; there is no need of daily trim-
ming of wick; and the combustion of the gas is so
simple that it is not liable to get out of order, and a
child can manage it readily. The gas burned in the
Vesper fixtures is generated from pure coal oil, with-
out any admixture of alcohol or other foreign ingredi-
ent. It is entirely free from odor while burning, and
by a simple contrivance, the vapor of the oil is mixed
with the atmosphere, producing perfect combustion
and a most intense light. The light has been pronounced
by those who have had it in constant use for months, as
most pleasant to the eye while reading or sewing, there
being no flicker or unsteadiness in the flame. The
Vesper Gas Light is portable, and can be used in town
or country, and, wherever artificial light is required.
The fixtures themselves are adapted in style to suit all
tastes, from the plain single-light burner to the most
costly chandelier. Each chandelier is perfect in itself,
there is no need of made for service pipes. The
gas is generated in the burner, and all fixtures, from the
cheap single-light burner, to the expensive chandelier,
are manufactured in the same way, and are sold at
prices which do not exceed the cost of the ordinary
gas fixtures of similar style and ornamentation. A price
list will be sent to any address on application.
